## Upgrade from 60 amp to 100 amp

Posted by dion717 - 2007/02/11 14:01

---

I am thinking of purchasing a house built in 1900. It is currently 60 amp and needs to be upgraded to 100 amp. The house is about 800 sq. ft. About how much would this cost?

Thanks.
